RE: Maria Quindumbay

Dear Mr. Friedman:

As requested, I have reviewed and analyzed the following medical legal documentation to determine whether Ms. Maria Quindumbay received medical treatment within the standards of medical care:

- 1) Hudson Valley Hospital Records of Maria Quindumbay (07/13/10 - 07/15/10;
07/26/10, 07/28/10);
- 2) Hudson Valley Hospital Records of Baby Quindumbay (07/14/10 - 07/23/10);
- 3) Westchester Medical Center Records of Maria Quindumbay (07/28/10 - 07/29/10);
- 4) Westchester Medical Center Records of Maria Quindumbay (07/05/06 - 07/29/10); and
- 5) Deposition Transcript of Hyun Chung, M.D. (dated 04/29/14).

SUMMARY:

On 07/13/10 at 8:10 p.m., Mrs. Maria Quirumbay, at age 25, G2 P1-0-0-1, LMP 10/15/09, EDC 07/10/10, was admitted to Hudson Valley Hospital for labor and delivery. Past obstetrical history was remarkable for a full term normal spontaneous vaginal delivery which was uncomplicated. Her antepartum was significant for a diagnosis of rheumatoid arthritis x 3 years treated with prednisone 5-10 mg (increased to 10 mg after MFM visit on 5/26/10) as well as a positive PPD (Chest XR on 01/06/10 revealed no infiltrate). On 04/29/10, RA Latex Turbid was 380.2 (n, 0.0-13.9U/ml H). "Stress dose steroids were given for labor and delivery."

Upon admission, she was placed on 100 mg IVPB of Solu Medrol (received at 12:00 p.m.).

At 2:25 p.m., artificial rupture of membranes occurred, and at 3:30 p.m., baby was delivered via normal spontaneous vaginal delivery.

On 07/14/10 and 07/15/10, prednisone 20 mg bid and prednisone 10 mg bid, respectively was given.

The post partum course was complicated by maternal fevers. On 07/14/10 at 12:51 a.m., temperature was 102.2°F; at 5:00 p.m., temperature was 101.9°F; and at 10:00 p.m., temperature was 101.4. The patient complained of hip pain, cramps, chills, and shivering. No abdominal tenderness was noted. A pelvic exam was not performed. The plan was to empirically treat for presumed postpartum endometritis with Ancef 1 gm IV q 6 hr (three doses: 07/14/10 at 6:38 p.m., 07/15/10 at 2:00 a.m., and 07/15/10 at 8:00 a.m. [discontinued on 07/15/10 at 12:23 p.m.]) and Clindamycin 600 mg IV (two doses: 07/14/10 at 6:42 p.m. and 07/15/10 at 3:45 a.m. [discontinued on 07/15/10 at 8:33 a.m.]). On 07/15/10 at 10:45 a.m., an order to discontinue IV antibiotics was given.

At 2:30 p.m., the temperature was noted to be 98.2°F. No abdominal tenderness was noted. A

pelvic exam was not performed. Blood cultures were collected on 07/14/10, at 5:50 p.m. (only one set), and the preliminary report on 07/15/10 at 6:57 a.m. initially revealed gram positive cocci in chains, and on 07/15/10 at 12:07 p.m., the culture was positive for *Streptococcus pyogenes* (Group A). On 07/14/10 at 10:00 p.m., it was noted that the WBC was 19.2, and the Bands were 31.0. On 07/15/10 at 5:00 a.m., the WBC was with Neutro percent 96.8, Neutro absolute 33.0. On 07/16/10, at 11:57 a.m., the WBC 23.5, Neutro percent 94.3, Neutro absolute 22.1.

According to the Discharge Note, on 07/14/10, "last temperature was at 5:00 p.m." At 7:30 a.m., BP was 89/49, and at 4:56 p.m., BP was 105/58. On 07/15/10, the current temperature was 98.2°F. At 4:16 a.m., BP was 87/57, at 7:30 a.m., BP was 89/49, and at 4:00 p.m., BP was 98/50. The physical exam was noted to be unremarkable, but no pelvic exam was apparently performed. The plan was to follow-up blood cultures.

On 07/15/10, since patient remained afebrile for 24 hours, she was discharged home with antibiotics. Visiting nurse services and close interval office followup arranged for patient. Patient was to continue prednisone.

On 07/15/10, the baby was admitted to the NICU and placed on antibiotics due to a maternal streptococcus bacteremia. Blood cultures were negative, and the antibiotics were discontinued.

On 07/26/14, Ms. Quindumbay returned to Hudson Valley Hospital with complaints of aches in legs and knee and was sent home with Toradol and Vicodin.

On 07/28/14, she presented to Hudson Valley again and complained of pain in multiple joints. She was again sent home with pain medications. At home, her visiting nurse told her to go back to the ER because her temperature was so abnormally low.

Later that day, she presented to Westchester Medical Center where she was admitted with

lethargy and purulent discharge from the cervical os.

On 07/29/10, she died from septic shock.

ANALYSIS:

Long-term steroids can suppress the protective role of the immune system and increase the risk of infection. Group A streptococcus (GAS) (eg., *Streptococcus pyogenes*) infection should be suspected in patient with early onset, high fever with hypotension. Further, a left shift in the differential blood count is suggestive of an infectious process.

CONCLUSIONS:

With a reasonable degree of medical certainty and probability, the attending physicians and staff at Hudson Valley Hospital deviated from accepted medical standards, and these deviations were substantial factors in causing the death of Maria Quiridumbay.

The risk for harm to Ms. Maria Quiridumbay was substantially increased due to the following acts of negligence and omissions:

- 1) Failure to perform a pelvic exam with a presumed diagnosis of postpartum endometritis. Uterine tenderness is a key finding in a woman with endometritis;
- 2) Failure to use a total of three blood culture sets. Only one set was used which is rarely advisable or sufficient. A positive single culture may not be interpretable unless an unequivocal pathogen is isolated. If a possible contaminant is reported on a single culture, additional culture data are needed, and in interim, unnecessary antimicrobial therapy or unnecessary testing may be pursued. Blood cultures are especially useful if the patient is immunocompromised as she was;

3) Failure to get an Infectious Disease consult in the presence of an immunocompromised patient with a presumed postpartum endometritis with symptoms consistent and confirmed by blood cultures indicative of a GAS infection; and

4) Failure to continue antibiotics until patient is clinically improved (no fundal tenderness) and afebrile for at least 24 hours. If bacteremia is present as indicated by a positive blood culture, oral antibiotic therapy after discontinuation of parenteral antibiotics to complete a seven-day total course of antibiotic therapy.

All of my opinions, which are offered within a reasonable degree of medical probability and certainty, are based solely on the medical documentation reviewed and are subject to modification if and when any additional documentation is subsequently forwarded for review.

Sincerely,

A handwritten signature in cursive script that reads "Douglas R. Phillips, M.D.".

RE: Maria Quiridumbay (Supplemental Report)

Dear Mr. Friedman:

As requested, I have reviewed and analyzed the following additional medical legal documentation to determine whether Ms. Maria Quiridumbay received medical treatment within the standards of medical care:

- 1) Deposition transcript of Sachin J. Shah, M.D. (dated 07/31/15);
- 2) Deposition transcript of Ingrid Deler-Garcia, C.N.M. (dated 08/06/15);
- 3) Deposition transcript of Rahmir Kar, M.D. (dated 09/04/15); and
- 4) Deposition transcript of Lindsay Seekircher, R.N. (dated 10/20/15).

The additional review did not change my opinion expressed in my 06/22/15 report, but instead

clarified and bolstered them.

BRIEF SYNOPSIS:

On 07/13/10, Mrs. Maria Quiridumbay was admitted to Hudson Valley Hospital for labor and delivery. Her antepartum was significant for a diagnosis of rheumatoid arthritis x 3 years treated with prednisone 5-10 mg. Upon admission, she was placed on 100 mg IVPB of Solu Medrol. At 3:30 p.m., the baby was delivered via normal spontaneous vaginal delivery by the nurse midwife, Ms. Ingrid Deler-Garcia.

On 07/14/10 and 07/15/10, prednisone 20 mg bid and prednisone 10 mg bid, respectively was given.

The post partum course was complicated by maternal fevers. On 07/14/10 at 12:51 a.m., temperature was 102.2°F; at 5:00 p.m., temperature was 101.9°F; and at 10:00 p.m., temperature was 101.4°F. According to the deposition testimony of Dr. Rahmir Kar, the covering obstetrician for Ms. Deler-Garcia, NM, "The most common reason for febrile morbidity in the postpartum period can be from endometritis (pg. 50)." The patient complained of hip pain, cramps, chills, and shivering, but no pelvic exam was performed. The plan was to empirically treat for presumed postpartum endometritis with Ancef 1 gm IV q 6 hr (three doses: 07/14/10 at 6:38 p.m., 07/15/10 at 2:00 a.m., and 07/15/10 at 8:00 a.m. [discontinued on 07/15/10 at 12:23 p.m.]) and Clindamycin 600 mg IV (two doses: 07/14/10 at 6:42 p.m. and 07/15/10 at 3:45 a.m. [discontinued on 07/15/10 at 8:33 a.m.]). On 07/15/10 at 10:45 a.m., an order to discontinue IV antibiotics was given. According to the deposition testimony of Dr. Kar, the plan formulated with Dr. Sarah Jordan, an obstetrician that was taking over coverage from Dr. Kar, involved discontinuing the antibiotic therapy until the antibiotic sensitivity results were determined so that the proper antibiotic regimen could be administered (pp. 22-23). Consequently, Dr. Kar ordered that the antibiotic administration be discontinued (pg. 70).

On 07/15/10, at 2:30 p.m., the temperature was noted to be 98.2°F. No abdominal tenderness was noted. A pelvic exam was not performed. Blood cultures were collected on 07/14/10, at 5:50 p.m. (only one set), and the preliminary report on 07/15/10 at 6:57 a.m. initially revealed gram positive cocci in chains, and on 07/15/10 at 12:07 p.m., the culture report revealed the presence of *Streptococcus pyogenes* (Group A). According to the deposition testimony of Ms. Deler-Garcia, the positive result was phoned in at 7:03 a.m. which was prior to the patient being discharged (pg. 53).

On 07/14/10 at 10:00 p.m., it was noted that the WBC was 19.2, and the Bands were 31.0. On 07/15/10 at 5:00 a.m., the WBC was with Neutro percent 96.8, Neutro absolute 33.0. On 07/16/10, at 11:57 a.m., the WBC 23.5, Neutro percent 94.3, Neutro absolute 22.1.

According to the Discharge Note, on 07/14/10, "last temperature was at 5:00 p.m." At 7:30 a.m., BP was 89/49, and at 4:56 p.m., BP was 105/58. On 07/15/10, the current temperature was 98.2°F. At 4:16 a.m., BP was 87/57, at 7:30 a.m., BP was 89/49, and at 4:00 p.m., BP was 98/50. The physical exam was noted to be unremarkable, but no pelvic exam was apparently performed. The plan was to follow-up blood cultures.

On 07/15/10, since patient remained afebrile for 24 hours, she was discharged home. Ms. Quiridumbay was to continue prednisone, but no prescription for antibiotics was given. According to the deposition testimony of Dr. Kar, she was unaware that Ms. Quiridumbay was discharged without antibiotics (pg. 57). Visiting nurse services were arranged for the patient.

On 07/15/10, the baby was admitted to the NICU and placed on antibiotics due to a maternal streptococcus bacteremia. Blood cultures were negative, and the antibiotics were discontinued.

On 07/26/14, Ms. Quiridumbay went to Hudson Valley Hospital ER with complaints of aches in legs and knee. According to the deposition testimony of Dr. Kar, after being informed that the patient's visiting nurse had called regarding "something is going on," Dr. Kar called the

Emergency Room physician, Dr. Chung, to inform him about the patient's impending arrival and to discuss the "issues during her postpartum course (pp. 39-41)." When Dr. Kar spoke to Dr. Chung, she was aware that the patient had a positive blood culture (pg. 94). Further, Dr. Kar noted that Dr. Chung had the patient's chart (pg. 46). Despite the "head's up" about the events during the postpartum course, Ms. Quiridumbay was sent home with Toradol and Vicodin, but no pelvic exam was performed, and no antibiotics were prescribed (pg. 47).

On 07/28/14, she presented to Hudson Valley again and complained of pain in multiple joints. She was again sent home with pain medications. At home, her visiting nurse told her to go back to the ER because her temperature was so abnormally low.

Later that day, she presented to Westchester Medical Center where she was admitted with lethargy and purulent discharge from the cervical os.

On 07/29/10, she died from septic shock.

ANALYSIS:

With a reasonable degree of medical certainty and probability, the attending physicians and staff at Hudson Valley Hospital deviated from accepted medical standards, and these deviations were substantial factors in causing the death of Maria Quiridumbay.

In addition to the acts of negligence and omissions cited in my 06/22/15 Report, the risk for harm to Ms. Maria Quiridumbay was substantially increased due to the following acts of negligence and omissions:

- 1) Failure to perform a pelvic exam with a presumed diagnosis of postpartum endometritis. Uterine tenderness is a key finding in a woman with endometritis;

2) Failure to use a total of three blood culture sets. Only one set was used which is rarely advisable or sufficient. A positive single culture may not be interpretable unless an unequivocal pathogen is isolated. If a possible contaminant is reported on a single culture, additional culture data are needed, and in interim, unnecessary antimicrobial therapy or unnecessary testing may be pursued. Blood cultures are especially useful if the patient is immunocompromised as she was. Dr. Kar in her deposition testimony stated that two sets of blood cultures was required (p. 15) and although three blood culture sets should have been obtained, clearly she realized one set of cultures is not sufficient;

3) Failure to get an Infectious Disease consult in the presence of an immunocompromised patient with a presumed postpartum endometritis with symptoms consistent and confirmed by blood cultures indicative of a GAS infection; and

4) Failure to continue antibiotics until patient is clinically improved (no fundal tenderness) and afebrile for at least 24 hours. If bacteremia is present as indicated by a positive blood culture, oral antibiotic therapy after discontinuation of parenteral antibiotics is required to complete a seven-day total course of antibiotic therapy.

All of my opinions, which are offered within a reasonable degree of medical probability and certainty, are based solely on the medical documentation reviewed and are subject to modification if and when any additional documentation is subsequently forwarded for review.

Sincerely,

Douglas R. Phillips, M.D.

“Dynamics and Management of Uterine Distension Media,” Hysterectomy Alternatives, Obstetrics and Gynecology Attendings, Residents, and Medical Students, NYU Downtown Hospital, New York, New York, C.M.E. Credit, October 11, 2003

VISITING PROFESSORSHIP PROGRAMS:

Live Case Demonstrations of Operative Hysteroscopy and Resectoscopy Including Endometrial Ablation, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, March 31, 1992

Live Case Demonstration of Laparoscopic Hysterectomy, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, September 23, 1992

Live Case Demonstrations of Operative Hysteroscopy and Resectoscopy Including Endometrial Ablation, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, November 23, 1992

Live Case Demonstrations of Operative Hysteroscopy and Resectoscopy Including Endometrial Ablation, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, December 1, 1992

Live Case Demonstration of Hysteroscopic Endometrial Ablation, Obstetrics and Gynecology Attendings and Residents, Nassau County Medical Center, East Meadow, New York, December 28, 1992

Live Case Demonstrations of Operative Hysteroscopy and Resectoscopy Including Endometrial Ablation, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, January 7, 1993

Live Case Demonstrations of Endometrial Ablation, Obstetrics and Gynecology Attendings, Mid-Island Hospital, Bethpage, New York, February 18, 1993

Live Case Demonstrations of Endometrial Ablation, Obstetrics and Gynecology Attendings, Brookdale Hospital, Brooklyn, New York, C.M.E. Credit, May 18, 1993

Live Case Demonstration of Endometrial Ablation, Obstetrics and Gynecology

Attendings and Residents, Nassau County Medical Center,
East Meadow, New York, C.M.E. Credit, June 4, 1993

Live Case Demonstration of Laparoscopic Assisted Vaginal Hysterectomy, Obstetrics and
Gynecology Attendings and Residents, Nassau County
Medical Center, East Meadow, New York, August 4, 1993

Live Case Demonstration of Operative Hysteroscopy, Obstetrics and Gynecology
Attendings, Newton Memorial Hospital, Newton, New Jersey, August 13, 1993

Live Case Demonstrations of Endomyometrial Resection, Obstetrics and Gynecology
Attendings,
Mid-Island
Hospital,
Bethpage,
New York,
August 18,
1993

Live Case Demonstrations of Laparoscopic Hysterectomy and Laparoscopic Assisted
Vaginal Hysterectomy, Obstetrics and Gynecology Attendings, Glens Falls Memorial
Hospital, Glens Falls, New York, August 24, 1993

Live Case Demonstrations of "Laparoscopic Hysterectomy" and "Laparoscopic Assisted
Vaginal Hysterectomy, Obstetrics
and Gynecology Attendings, Glens
Falls Memorial Hospital, Glens
Falls, New York, August 25, 1993

Live Case Demonstration of "Laparoscopic Assisted Vaginal Hysterectomy and
Laparoscopic Umbilical Herniorrhaphy," Obstetrics and Gynecology Attendings
and Residents, Nassau County Medical Center, East Meadow, New York, September 1,
1993

Live Case Demonstrations of Video Laser Laparoscopy with Laparoscopic Uterine Nerve
Ablations, Obstetrics and Gynecology Attendings, Newton Memorial Hospital,
Newton, New Jersey, September 28, 1993

Live Case Demonstration of Laparoscopic Assisted Vaginal Hysterectomies, Obstetrics
and Gynecology Attendings, Mid-Island Hospital, Bethpage, New York, October 13,
1993

Live Case Demonstration of Laparoscopic Assisted Vaginal Hysterectomies, Obstetrics
and Gynecology Attendings, Residents, and Physician Assistants, Coney Island

Hospital, Brooklyn, New York, October 14, 1993

Live Case Demonstrations of Endomyometrial Resection, Obstetrics and Gynecology Attendings, White Plains Hospital, White Plains, New York, October 15, 1993

Live Case Demonstrations of Laparoscopic Assisted Vaginal Hysterectomies and Endometrial Ablations, Obstetrics and Gynecology Attendings, St. Clare's Riverside Medical Center, Whippany, New Jersey, November 19, 1993

Live Case Demonstrations of Laparoscopic Assisted Vaginal Hysterectomies, Mid-Island Hospital, Obstetrics and Gynecology Attendings, Mid-Island Hospital, Bethpage, New York, January 7, 1994

Live Case Demonstrations of Laparoscopic Assisted Vaginal Hysterectomy and
Laparoscopic
Leiomyoma
Coagulations,
Obstetrics and
Gynecology
Attendings, St. Luke's
Hospital, Newburg,
New York, January
20, 1994

Live Case Demonstrations of Endomyometrial Resection and Myoma Coagulations,
Obstetrics and Gynecology Attendings, Mid-Hudson Valley
Hospital, Peekskill, NY, January 29, 1994

Live Case Demonstrations of Laparoscopic Assisted Vaginal Hysterectomies, Obstetrics and Gynecology Attendings, St. Peter's Hospital, Albany, New York, February 14, 1994

Live Case Demonstration of Laparoscopic Hysterectomies, Obstetrics and Gynecology Attendings, White Plains Hospital, White Plains, New York, April 16, 1994

Live Case Demonstrations of Endomyometrial Resection, Obstetrics and Gynecology Attendings, White Plains Hospital, White Plains, New York, C.M.E. Credit, April 23, 1994

Live Case Demonstrations of Laparoscopic Assisted Vaginal Hysterectomies, Obstetrics and Gynecology Attendings, St. Peter's Hospital, Albany, New York, May 6, 1994

Live Case Demonstrations of Laparoscopic Hysterectomy, Obstetrics and Gynecology Attendings, Morristown Memorial Hospital, Morristown, New Jersey, May 20, 1994

Live Case Demonstration of Laparoscopic Assisted Vaginal Hysterectomy, Obstetrics and

Gynecology
Attendings,
Mercy
Hospital,
Rockville
Centre, June
30, 1994

Live Case Demonstrations of Myoma Coagulation, Obstetrics and Gynecology,
Attendings, White Plains Hospital, White Plains, New York, August 13, 1994

Live Case Demonstrations of Endomyometrial Resection, Obstetrics and Gynecology
Attendings, White Plains Hospital, White Plains, New York, September 19, 1994

Live Case Demonstrations of Endomyometrial Resection, Obstetrics and Gynecology
Attendings, Overton Hospital, Summit, New Jersey, November 5, 1994

Live Case Demonstrations of Myoma Coagulation, Obstetrics and Gynecology
Attendings, Crouse Irving Memorial Hospital, Syracuse, New York, November 12, 1994

Live Case Demonstrations of Myoma Coagulation and Endomyometrial Resection,
Obstetrics and Gynecology Attendings, White Plains Hospital,
White Plains, New York, November 18, 1994

Live Case Demonstrations of Myoma Coagulation and Endomyometrial Resection, and
Gynecology Attendings, White Plains Hospital, White Plains, New York, December 13,
1994

Live Case Demonstrations of Myoma Coagulation, Obstetrics and Gynecology
Attendings, Crouse Irving Memorial Hospital, Syracuse, New York, December 14, 1994

Live Case Demonstrations of Endomyometrial Resection and Resection of Submucous
Leiomyomata, Obstetrics and Gynecology Attendings, St. Peter's Hospital,
Albany, New York, December 17, 1994

Live Case Demonstrations of Myoma Coagulation and Endomyometrial Resection,
Obstetrics and Gynecology Attendings, Butterworth
Hospital, Grand Rapids, Michigan, February 1, 1995

Live Case Demonstrations of Endomyometrial Resection and Resection of Submucous
Leiomyomata, Obstetrics and Gynecology Residents, North Shore University
Hospital, Manhasset, New York, March 10, 1995

Live Case Demonstration of Laparoscopic Leiomyoma Coagulation, Obstetrics and

Gynecology Residents and Attendings, South
Nassau Communities Hospital, Oceanside, New
York, March 14, 1995

Live Case Demonstration of Endomyometrial Resection Obstetrics and Gynecology
Attendings, Mid-Island Hospital, Bethpage, New York, April 13, 1995

Live Case Demonstrations of Myoma Coagulation and Endomyometrial Resection,
Obstetrics and Gynecology Attendings, Kaiser Permanente Surgical Center, Falls Church,
Virginia, April 27, 1995

Live Case Demonstration of Transcervical Resection of Submucous Leiomyomata,
Myoma Coagulation and Endometrial Ablation, Obstetrics and Gynecology Attendings,
White Plains Hospital, White Plains, New York, May 5, 1995

Live Case Demonstrations of Transcervical Resection of Submucous Leiomyomata and
Endometrial Ablation, Obstetrics and Gynecology Attendings, Century Same Day
Surgery Center, Latham, New York, May 13, 1995

Live Case Demonstrations of Endomyometrial Resection, Transcervical Resection of
Submucous Leiomyomata, and Myoma Coagulation and Endometrial Ablation, Obstetrics
and Gynecology Attendings, White Plains Hospital, White Plains, New York, May 22,
1995

Live Case Demonstrations of Endomyometrial Resection, Transcervical Resection of
Submucous Leiomyomata, and Myoma Coagulation, Obstetrics and Gynecology
Attendings, South Nassau Communities Hospital, Oceanside, New York, June 6, 1995

Live Case Demonstrations of Endomyometrial Resection, Transcervical Resection of
Submucous Leiomyomata, and Myoma Coagulation, Obstetrics and Gynecology
Attendings, South Nassau Communities Hospital, Oceanside, New York, July 18, 1995

Live Case Demonstrations of Transcervical Resection of Submucous Leiomyomata, and
Endometrial Ablation, Obstetrics and Gynecology Attendings, White Plains Hospital,
White Plains, New York, October 25, 1995

Live Case Demonstration of Endomyometrial Resection, Obstetrics and Gynecology
Attendings, South Nassau Communities Hospital, Oceanside, New York, October 27,
1995

Live Case Demonstrations of Endomyometrial Resection; Laparoscopic Leiomyoma
Coagulation; Laparoscopic Myomectomy, Obstetrics and Gynecology Residents and
Attendings, South Nassau Communities Hospital, Oceanside, New York, November 17,
1995

Live Case Demonstration of Hysteroscopic Resection of Submucous Leiomyomata and

Endomyometrial Resection, Obstetrics and Gynecology Residents and Attendings, Long Island Jewish Medical Center, New Hyde Park, New York, November 21, 1995

Live Case Demonstration of Hysteroscopic Resection of Submucous Leiomyomata and Abdominal Myomectomy, Obstetrics and Gynecology Residents and Attendings, Long Island Jewish Medical Center, New Hyde Park, New York, December 15, 1995

Live Case Demonstration of Laparoscopic Subtotal Hysterectomy, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, December 27, 1995

Live Case Demonstrations of Hysteroscopic Resection of Leiomyomata, Obstetrics and Gynecology Attendings, Recovery Inn, Menlo Park, California, March 7, 1996

Live Case Demonstrations of Endomyometrial Resection and Resection of Submucous Leiomyomas, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, March 12, 1996

Live Case Demonstrations of Hysteroscopic Resection of Leiomyomata, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, April 17, 1996

Live Case Demonstrations of Hysteroscopic Resection of Leiomyomata and Endomyometrial Resection, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, April 17, 1996

Live Case Demonstrations of Hysteroscopic Resection of Leiomyomata and Endomyometrial Resection, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, May 29, 1996

Live Case Demonstrations of Operative Laparoscopy, Obstetrics and Gynecology Attendings and Long Island Jewish Medical Center Resident, South Nassau Communities Hospital, Oceanside, New York, July 2, 1996

Live Case Demonstrations of Operative Laparoscopy, Obstetrics and Gynecology Attendings and Long Island Jewish Medical Center Resident, South Nassau Communities Hospital, Oceanside, New York, July 3, 1996

Live Case Demonstrations of Hysteroscopic Resection of Leiomyomata and Endomyometrial Resection, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, July 9, 1996

Live Case Demonstrations of Laparoscopic Subtotal Hysterectomy, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, July 9, 1996

Live Case Demonstrations of Laparoscopic Subtotal Hysterectomy, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, July 17, 1996

Live Case Demonstration of Laparoscopic Salpingoophorectomy, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, July 23, 1996

Live Case Demonstrations of Laparoscopic Assisted Vaginal Hysterectomy and Endomyometrial Resection, Obstetrics and Gynecology Attendings, South Nassau Communities Hospital, Oceanside, New York, July 24, 1996

Credit, December 7-9, 1995

Second World Congress of Hysteroscopy: "The Effect of Dilute Vasopressin Solution (0.25%) on Cervical Dilatation during Operative Hysteroscopy (Paper)," "The Effect of Dilute Vasopressin Solution (0.25%) on Intraoperative Blood Loss during Operative Hysteroscopy (Paper)," "Hysteroscopic Resection of Adenomyoma (Video Presentation)," "Relationship of Endometrial Thickness with the Menstrual Timing of Depot Leuprolide Acetate Administration (Paper)," "Comparison of the Blood Chemistry Changes during Operative Hysteroscopy Using 5.0% Mannitol vs. 1.5% Glycine (Paper) Miami, Florida, C.M.E. Credit, February 9-11, 1996

World Congress of Gynecologic Endoscopy, AAGL 25th Annual Meeting: "The Effect of Dilute Vasopressin Solution on Intraoperative Blood Loss during Operative Hysteroscopy: A Randomized, Controlled Trial (Paper)," "Laparoscopic Bipolar Coagulation for the Conservative Treatment of Adenomyomata (Poster)," "The Effect of Dilute Vasopressin Solution on Cervical Dilatation during Operative Hysteroscopy: A Randomized, Controlled Trial (Paper)," "Laparoscopic Leiomyoma Coagulation (Myolysis): Long Term Follow Up of 167 Patients (Poster; Third Place Award)," "Comparison of the Blood Chemistry Changes during Operative Hysteroscopy Using 5.0% Mannitol vs. 1.5% Glycine (Paper)," "Adequacy of the FemRx Opera Star System Endometrial Tissue Samples for Histology (Paper)," Chicago, Illinois, C.M.E. Credit, September 25-29, 1996

World Congress on Hysteroscopy and Related Technologies in the Management of Abnormal Uterine Bleeding (AUB): "Laparoscopic Leiomyoma Coagulation," "The Effects of Two Different Distension Medium Fluid Temperatures on Intravasation, Blood Loss, and Hypothermia during Transcervical Resection of Endomyometrium and Any Existing Submucous Leiomyoma: A Randomized Trial," "Preventing Hyponatremic Encephalopathy: A Comparison of Serum Sodium and Osmolality during Operative Hysteroscopy with 5.0% Mannitol and 1.5% Glycine Distention Media," Miami Beach, Florida, C.M.E. Credit, February 27-March 1, 1998

World Congress of Gynecologic Endoscopy, AAGL 27th Annual Meeting: "Abdominal Approaches: Laparoscopy or Laparotomy; Myomectomy or Myolysis (presentation in Post Graduate Course: Evaluation and Management of Abnormal Uterine

Bleeding),” “Laparoscopic Hysterectomy for Fibroids: Techniques, Indications, and Complications (presentation in Post Graduate Course: Management of Uterine Fibroids [Co-Chairman]),” “Laparoscopic Myomectomy: Techniques, Indications, Complications, and Fertility Results (presentation in Post Graduate Course: Management of Uterine Fibroids [Co-Chairman]),” “Myolysis: Techniques, Indications, and Complications (presentation in Post Graduate Course: Management of Uterine Fibroids [Co-Chairman]),” “Hysteroscopic Resection of Submucous Fibroids: Techniques, Indications, and Complications (presentation in Post Graduate Course: Management of Uterine Fibroids [Co-Chairman]),” “Absorption of Physiologic Fluids versus Nonphysiologic Fluids (discussant in Free Communications-Hysteroscopy and Endometrial Ablation),” “The Effects of Two Different Distension Medium Fluid Temperatures on Intravasation, Blood Loss, and Hypothermia during Transcervical Resection of Endomyometrium and Any Existing Submucous Leiomyoma: A Randomized Trial (presentation in Free Communications-Hysteroscopy and Endometrial Ablation),” Atlanta, Georgia, C.M.E. Credit, October 14-19, 1998

World Congress of Gynecologic Endoscopy, AAGL 28th Annual Meeting: “Laparoscopic Myomectomy and Myolysis (Postgraduate Lecture)” and “Prevention and Management of Fluid Overload; Monitoring Input and Output (Panel Discussion),” Las Vegas, Nevada, C.M.E., Credit, November 8-11, 1999

World Congress of Diagnostic and Operative Hysteroscopy: “Effects of Different Distension Medium Fluid Temperatures on Intravasation, Blood Loss, and Hypothermia during Transcervical Resection of Endomyometrium and Any Existing Submucous Leiomyoma: A Randomized Trial,” Miami Beach, Florida, C.M.E. Credit, February 25-27, 2000

World Congress of Gynecologic Endoscopy, AAGL 30th Annual Meeting: “Endometrial Ablation/Endomyometrial Resection and Resection of Submucous Fibroids” and “Laparoscopic Myolysis” (presentations in Post Graduate Course in which I was Chairman: *Alternatives to Hysterectomy; Evaluation and Management of Abnormal Uterine Bleeding*) and Moderator: *Endometrial Ablation Presentations*, San Francisco, California, C.M.E. Credit, November 16-19, 2001

World Congress of Gynecologic Endoscopy, AAGL 31th Annual Meeting: Moderator: Open Communications 13 (Miscellaneous), Miami, Florida, C.M.E. Credit, November 20-24, 2002

World Congress of Gynecologic Endoscopy, AAGL 32th Annual Meeting: “Dynamics and Management of Uterine Distention Media” and Hysteroscopic Endometrial Ablation/Resection of Endomyometrium” (presentations in Post Graduate Course) and Co-Moderator: *Hysteroscopy*, Las Vegas, Nevada, C.M.E. Credit, November 19-22, 2003

World Congress of Gynecologic Endoscopy, AAGL 33th Annual Meeting:

Co-Moderator: *Plenary I Endometrial Ablation I*, San Francisco, California, C.M.E. Credit, November 10-13, 2004

World Congress of Minimally Invasive Gynecology, AAGL 35th Annual Meeting: "Office Liposuction and Fat Transfer," Las Vegas, Nevada, C.M.E. Credit, November 6-9, 2006

PAPER, POSTER OR ABSTRACT PRESENTATIONS AT LOCAL MEETINGS:

Research Day, "Laparoscopic Leiomyoma Coagulation (Poster)," "A Comparison of Endometrial Ablation Using the Nd:YAG Laser or Electrosurgical Technique (Abstract)," "Transcervical Electrosurgical Resection of Submucous Leiomyomas for Chronic Menorrhagia (Abstract)," "Endometrial Ablation for Postmenopausal Uterine Bleeding Induced by Hormone Replacement Therapy (Abstract)," "Laparoscopic Hysterectomy and Its Variations in Private and Academic Institutions: 100 Cases (Abstract)," Long Island Jewish Medical Center, New Hyde Park, New York, March 21, 1995

NATIONAL GYNECOLOGIC COURSE DEVELOPER AND DIRECTOR:

Operative Hysteroscopy and Resectoscopy, Lecture Presented: "Use of GnRH Agonist Therapy in Hysteroscopic Surgery," South Nassau Communities Hospital, Oceanside, New York, 14 Credit Hours in Category I and 14 American College of Obstetrics and Gynecology Cognate Credits, March 19-20, 1993

Operative Hysteroscopy, Resectoscopy, and Laparoscopy, Lectures Presented: "Introduction to Endoscopy," "Use of GnRH Agonist Therapy in Endoscopic Surgery," and "Laparoscopic Hysterectomy," Live Case Presentation: "Endometrial Ablation, Resection of Submucous Leiomyomata, and Myoma Coagulation," South Nassau Communities Hospital, Oceanside, New York. 16 Credit Hours in Category I and 14 American College of Obstetrics and Gynecology Cognate Credits, September 10-11, 1993

HOSPITAL GYNECOLOGIC COURSE DEVELOPER AND DIRECTOR:

Gynecologic Endoscopy for Nurses, Lectures Presented: "Hysteroscopy: History, Indications, Contraindications, and Complications," "Hysteroscopic Distension Media," "Endoscopic Instrumentation," "Hysteroscopic Medications," and "Patient Care: Preoperative, Intraoperative, and Postoperative," South Nassau Communities Hospital, Oceanside, New York, 9 Nursing Contact Hours, September 9-10, 1994

PROGRAM CHAIRMAN:

Advanced Operative Endoscopy, Lectures Presented: "Introduction to Endoscopy," "Endoscopic Instrumentation," "Endometriosis," "Adhesiolysis," "Laparoscopic

Management of Leiomyomata Uteri,” and “Laparoscopic Hysterectomy,” Interfaith Hospital, Brooklyn, New York, 7 Credit Hours in Category I, May 22, 1993

Advances in Gynecology: Improving Outcomes, Lectures Presented: Endomyometrial Resection,” “Resection of Submucous Leiomyomata,” and “Algorithms for the Treatment of Asymptomatic and Symptomatic Leiomyomata,” Medical Education Collaborative, New York, New York, 9 Credit Hours in Category I, April 21-22, 1994

Update 1996: Current Issues and New Techniques in Gynecology, Lectures Presented: “Laparoscopic Myolysis: An Alternative to Hysterectomy for Myomas” and “Hysteroscopic Resection of Submucous Myomas,” Medical Education Collaborative, San Francisco, California, 9.5 Credit Hours in Category I, July 26-27, 1996

Management of Gynecologic Disorders for the Next Millennium: Improving Outcomes, Lectures Presented: “Hysteroscopic Resection of Submucous Leiomyomas” and “Laparoscopic Treatment of Leiomyomas,” Medical Education Collaborative, New York, New York, 9.5 Credit Hours in Category I, September 5-6, 1997

Key Strategies and Techniques for Advanced Operative Laparoscopy and Hysteroscopy (Including Hands-on Animate Tutorial Lab and Live Surgery), Lectures Presented: “Introduction and Overview of Hysteroscopic Surgery,” “Hysteroscopic Instrumentation and Distending Media-How to Use Them and Stay Out of Trouble at the Same Time,” and “Hysteroscopic Polypectomy and Myomectomy-Instrumentation, Techniques, and Safety Considerations,” American Association of Gynecologic Laparoscopists, Cincinnati, Ohio, 16 Credit Hours in Category I, November 30-December 1, 2001

PROGRAM PRECEPTOR:

Gynecologic Endoscopy, Lectures Presented: “Endometrial Ablations” and “Management of Leiomyomata,” Live Surgery Performed: “Endometrial Ablation and Leiomyoma Coagulation,” Staten Island University Hospital, Staten Island, New York, 14 Credit Hours in Category I, June 4-5, 1993

Preceptor, “Hands-On” Operative Endoscopy Laboratory with live and inanimate tissue, Operative Laparoscopy and Hysteroscopy Workshop, Uniondale, New York, C.M.E. Credit, April 30, 1994

Preceptor, “Hands-On” Operative Endoscopy Laboratory, Advanced Operative Endoscopy, Interfaith Hospital, Brooklyn, New York, 7 Credit Hours in Category I, May 22, 1993

CONTINUING MEDICAL EDUCATION:

Clinical and Histopath Overview of Obstetrics and Gynecology
9/24/85 - 9/28/85 (39 hrs.)
St. Barnabas Medical Center
New York, New York

Annual Semmelweis-Waters Ob/Gyn Conference
3/27/87 - 3/30/87 (19 hours)
UMDNJ-NJ Medical School Department Ob/Gyn
Atlantic City, New Jersey

Advanced Gynecologic Surgery
4/12/87 - 4/15/87 (20 hrs.)
St. Barnabas Medical Center
New York, New York

Gynecologic Laser Surgery
5/22/87 - 5/23/87 (10 hrs.)
Germantown Hospital and Medical Center
Germantown, Pennsylvania

The YAG Laser: Applications in Gynecology
1/29/88 - 1/30/88 (14 hrs.)
AAGL
Phoenix, Arizona

Clinical Workshop in Hysteroscopy
3/18/88 - 3/20/88 (14 hrs.)
Cedars Sinai Medical Center
Los Angeles, California

Ablation of the Endometrium with Laser
3/24/88 (8 hrs.)
Grant Medical Center
Columbus, Ohio

Advanced Laparoscopic and Hysteroscopic Surgery
4/29/88 - 4/30/88 (15 hrs.)
University of Massachusetts
Worcester, Massachusetts

Contact and Panoramic Hysteroscopy
6/03/88 - 6/04/88 (11 hrs.)

Harvard Medical School
Boston, Massachusetts

Advanced Colposcopy
6/15/88 - 6/18/88 (15 hrs.)
Danbury Hospital
New York, New York

Specialty Review in Obstetrics and Gynecology
10/15/88 - 10/22/88 (55 hrs.)
Cook County Graduate School of Medicine
Chicago, Illinois

28th Annual Postgraduate Course in Obstetrics and Gynecology
10/25/88 - 10/28/88 (35 hrs.)
College of Physicians and Surgeons of Columbia
New York, New York

14th Annual Ob/Gyn Review
10/30/88 - 11/11/88 (140 hrs.)
University of Miami School of Medicine
Miami, Florida

Ob/Gyn Review Course
11/25/88 - 12/04/88 (140 hrs.)
Perinatal Resources, Inc. & Reproductive Research and Development
Columbus, Ohio

Surgical Hysteroscopy
12/17/88 - 12/18/88 (13 hrs.)
College of Physicians and Surgeons of Columbia
New York, New York

Annual Semmelweis-Waters Ob/Gyn Conference
3/31/89 - 4/02/89 (18 hrs.)
UMDNJ-NJ Medical School Department of Ob/Gyn
Atlantic City, New Jersey

Medico-Legal Issues in Obstetrics and Gynecology
4/12/89 - 4/14/89 (19 hrs.)
Harvard Medical School
Boston, Massachusetts

Sixth Annual Seminar in Ob/Gyn Ultrasound
6/09/89 - 6/10/89 (10 hrs.)

NYU Post Graduate Medical School
New York, New York

Reproductive Endocrinology and Infertility

8/21/89 - 8/26/89 (25 hrs.)
American Fertility Society
Bermuda

Hysteroscopy

9/21/89 (7 hrs.)
George Washington University
Washington, D.C.

Third Annual Update in Pelvic and Vaginal Surgery

11/09/89 - 11/10/89 (12 hrs.)
Texas A&M University College of Medicine
San Antonio, Texas

Advanced Colposcopy HPV Tutorial Carbon Dioxide Laser

11/17/89 - 11/19/89 (12 hrs.)
American Society for Colposcopy and Cervical Pathology
Ponte Verde Beach, Florida

Transvaginal Sonography

11/29/89 - 12/01/89 (24 hrs.)
University of Rochester School of Medicine
Rochester, New York

Diagnosis and Treatment of HPV Lesions of the Genital Tract

12/10/89 - 12/13/89 (18 hrs.)
University of Alabama
Acapulco, Mexico

Annual Semmelweis-Waters Ob/Gyn Conference

3/09/90 - 3/11/90 (18 hrs.)
UMDNJ-NJ Medical School Department of Ob/Gyn
Atlantic City, New Jersey

Colposcopy, Hysteroscopy, Laser Surgery

6/05/90 - 6/09/90 (36.5 hrs.)
St. Joseph's Hospital of Atlanta, Georgia
Atlanta, Georgia

Intensive Vaginosonography

6/15/90 (7 hrs.)

American Association of Gynecological Laparoscopists

San Antonio, Texas

Annual Semmelweis-Waters Ob/Gyn Conference

3/04/91 - 3/06/91 (18 hrs.)

UMDNJ-NJ Medical School Department of Ob/Gyn

Atlantic City, New Jersey

Clinical Course for Surgical Pelviscopy

6/06/91 - 6/09/91 (15 hrs.)

International Federation of Gynecologic Laparoscopists

New York, New York

Laparoscopic Hysterectomy

7/24/91 - 7/25/91 (14 hrs.)

Chattanooga Women's Laser Center

Chattanooga, Tennessee

Laparoscopic Surgery and Urology

Harbor Hospital Center

Baltimore, Maryland

Medical Liability Mutual Insurance Company Risk Management Conference

5/18/92 (5 hrs.)

MMLIC

Garden City, New York

International Congress of Gynecologic Endoscopy
9/23/92 - 9/27/92 (24 hrs.)
AAGL 21st Annual Meeting
Chicago, Illinois

11th Clinical Course for Pelviscopic Hysterectomy without Colpotomy
11/20/92 - 11/21/92 (15 hrs.)
Staten Island University Hospital
Staten Island, New York

The Nassau Surgical Society 12th Annual Clinic Day
12/03/92 (4 hrs.)
Nassau Surgical Society
Uniondale, New York

4th Annual Medical Conference
12/5/92 - 12/12/92 (10 hrs.)
South Nassau Communities Hospital
Aruba

First Annual Gynecology Conference:
Operative Hysteroscopy and Resectoscopy
3/19/93 - 3/20/93 (14 hrs.)
South Nassau Communities Hospital
Oceanside, New York

Advanced Operative Endoscopy
5/22/93 - 5/24/93 (14 hrs.)
Interfaith Hospital
Brooklyn, New York

Gynecological Endoscopy
6/05/93 - 6/06/93 (14 hrs.)
Staten Island University Hospital
Staten Island, New York

Advanced Operative Gynecology
6/11/93 (8 hrs.)
Ethicon
Somerville, New Jersey

Operative Laparoscopy and Hysteroscopy
6/26/93 - 6/27/93 (14 hrs.)
John F. Kennedy Medical Center
Edison, New Jersey

First International Gynecologic Endoscopic Film Festival
8/27/93 - 8/28/93 (15 hrs.)

AAGL
San Diego, California

Semi-Annual Gynecology Conference:
Operative Hysteroscopy, Resectoscopy, and Laparoscopy
9/10/93 - 9/11/93 (16 hrs.)
South Nassau Communities Hospital
Oceanside, New York

Current Issues in Diagnostic and Operative Hysteroscopy
